## Products

It's the primary challenge all dental professionals face: 50% of Americans, according to [worlddental.org](http://worlddental.org), avoid dental care entirely because of anxiety about pain — most often, the pain of dental anesthetic injections. **DentalVibe** is a cordless, handheld, easy-to-use device designed to reduce the pain and fear associated with the dreaded dental injection for adults as well as children. DentalVibe can be used with any dental anesthetic injection syringe to deliver comfortable injections in all areas of the mouth. **VibraPulse™** technology delivers unique soothing pulsed vibration to block pain and discomfort. For more information, visit [www.dentalvibe.com](http://www.dentalvibe.com). **DIRECT PRODUCT**

Kerr announces the new **Volume Machine delivery system**, an automix device that simplifies impression-taking procedures with fast, easy extrusion and tray filling. The Volume Machine is an economical option available for use with Kerr's impression material product lines — from Take 1 Advanced to AlgiNot. The Volume Machine offers rapid and homogenous mixing of 5:1 impression materials in a durable device with easy, intuitive controls, designed to withstand the demands of today's busy practice. Dental professionals will benefit from the Volume Machine's superior advantages: multiple mixing speeds; a timer for monitoring set time; a low material-level indicator; and an optional wall-mounting bracket. For more information, visit [www.kerrdental.com](http://www.kerrdental.com). **AVAILABLE THROUGH DEALERS**

IndiGreen Innovations has gained exclusive distributor rights for **E-Prop™ Mouth Props**. These comfortable, latex-free mouth props maintain an open field while holding a saliva ejector in the perfect position. Invented by a hygienist, E-Prop is ideal for lengthy procedures. Any standard saliva ejector may be inserted into the prop before connecting to a valve, or E-Prop may be used without a saliva ejector. Its unique C-shape aids side access and visibility. Rigid polypropylene construction with soft elastomer pads allows for comfortable, secure bite-in. Available in three color-coded sizes, E-Props are fully autoclavable. For more information, visit [www.indigreen.com](http://www.indigreen.com). **AVAILABLE THROUGH DEALERS**
